SHOP SAFE THIS HOLIDAY SEASON WITH THESE TIPS!

There is no better time to shop online than the holidays, when the hoards of shoppers can sap your energy and holiday spirit. But the Grinch may be stealing more than the presents from Whoville; he might be stealing your personal information if you don't take precautions for safe online holiday shopping.

1. Ho-ho-hold on before you click on a link delivered to you in an email. Can't wait to buy that Chia Pet for 80 percent off? Beware clicking on links you receive from unfamiliar websites. It could be a "phishing" scheme, where shoppers who click through are led to a false site developed to steal their data. If

the deal is too good to pass up, enter the website name by hand into your browser.

- 2. Santa's watching! And so are thieves unless you lock your device. Webroot found that a surprising 53 percent of respondents leave their devices unlocked, which can expose their personal information to prying eyes. Most devices request that you lock it with a password or code; take advantage of this feature to keep your information secure.
- 3. 'Appy holidays: For safe online shopping, make sure your apps are downloaded from a trusted source, such as the Android Market, Apple App Store or the Amazon App Store. When you download the app, it will ask for various "permissions." Be sure to read through them and note whether they make sense... for example, does a shopping app need access to your contact list? Another way to check on the safety of apps is to read through the feedback in the comments section of the market and choose apps with a high rating.
